

MD-620

- Microprocessor controlled PLL modulator for AV signals
- Compatible with CCTV systems
- Front panel channel digital display
- Front panel push button control for easy channel selection
- Output level adjustable
- Highly accurate RF output level and frequency

Model	MD-610	MD-611	MD-620
Input signal	1x AV	1x AV	2x AV
Input signal level (Vid./Aud.)	1Vpp-0 dBm (Reg)		
Output modulation	DSB		
Standards	PAL , BG		
Channels	S23/40, E21/30		
Input range frequency	MHz	318-550	
Impedance	Ohm	75	
Output level	dB μ V	82 \pm 2	
Output level adjustment	dB	0 / -10	
Through loss	dB	3	
Operating voltage	100-240 VAC	12 VDC	100-240 VAC
Consumption	W	2	1,5
Dimensions	mm	84x48x34
